

SIMPLi RETURN

Your full-service provider for lithium-ion batteries.

Worldwide | Simple | Safe

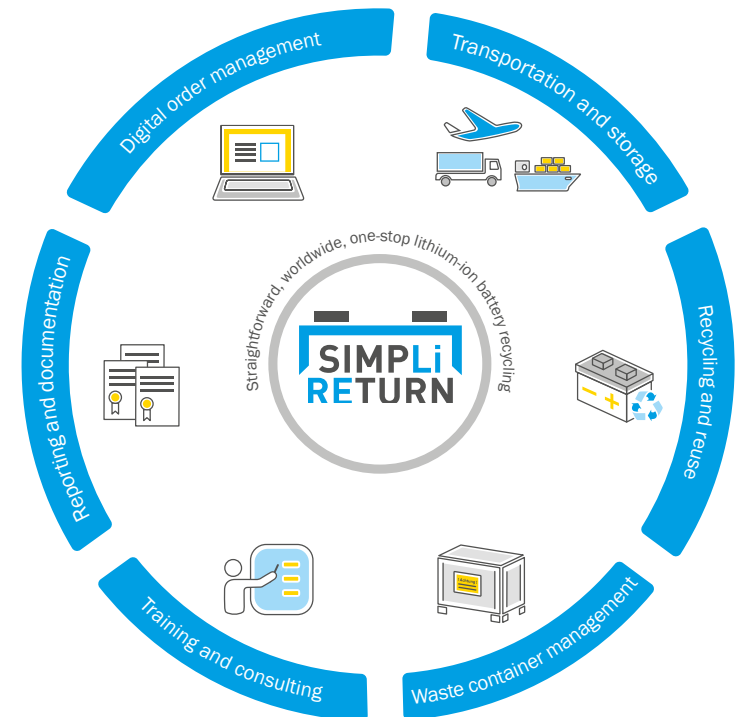

SIMPLi RETURN

We organise the worldwide pick-up, transportation and recycling of your end-of-life industrial lithium-ion batteries.

Reliable, transparent and eco-friendly.

SIMPLi RETURN is a brand of INTERSEROH Dienstleistungs GmbH. The company is a leading provider in the field of services for product, material and logistics loops. SIMPLi RETURN combines 50 years of experience in the development of innovative recycling and take-back solutions, and can draw on an extensive and international network of logistics providers and partners.

With its integrated service packages for the take-back and recycling of lithium-ion batteries, SIMPLi RETURN promotes the vision of a 'zero waste' society – a world that generates no waste and one in which all materials are efficiently managed as part of a closed loop. This venture aims to provide climate, resource and environmentally friendly handling of end-of-life industrial lithium-ion batteries.

- ✓ Worldwide take-back service
- ✓ Services can be ordered separately or as a turnkey package (one-stop shop)
- ✓ Standardised handling for small or large quantities
- ✓ Eco-friendly recycling, including full record-keeping
- ✓ Digital order management for better efficiency and full transparency
- ✓ 50 years of experience in disposal and recycling

Our digital order management system offers you improved security, greater efficiency and full transparency.

Digital order management

Digital order management

We take back industrial lithium-ion batteries worldwide, whether intact or damaged. You simply place your take-back order using the SIMPLi RETURN online portal or by phone or email. We organise everything else.

The SIMPLi RETURN portal gives you access to full documentation and information about the recycling or reuse of your batteries. This lets you track the battery disposal and recycling/reuse process step by step.

Benefits

- ✓ Simple order placement
- ✓ Digital management of all data and documents
- ✓ Flexible access from anywhere
- ✓ Full transparency and superior efficiency
- ✓ Compatible with all professional ERP systems

Our industry-standard container systems improve safety while giving you greater flexibility.

Waste container management

We provide appropriate containers as well as practical online container management services. Our optional container rental service also means you can avoid any costs of procurement.

All boxes are approved for use in maritime, road and air transportation, and include a range of modern technical features such as GPS or battery state monitoring. We also handle the cleaning and global reverse logistics for containers to your business premises.

Waste container management

Benefits

- ✓ Flexible container provisioning
- ✓ Demand-based rental model
- ✓ Transparent container return
- ✓ Professional cleaning of storage/shipping boxes
- ✓ Monitoring and extinguishing apparatus for safety

Our intelligent take-back system enables you to benefit from optimised transport quotas and professional storage.

Transportation and storage

Lithium-ion batteries are classified as hazardous waste. We organise their safe pick-up and cross-border transportation via road, air or maritime shipping routes. We only employ qualified personnel and only use means of transport that are approved for handling dangerous goods.

We determine the optimum route, storage and recycling facilities for each order – and make full use of our international network of logistics providers and other partners.

Benefits

- ✓ Quick pick-up in Europe: pick-up possible only 48 hours after order placement
- ✓ Emergency hotline staffed 24/7
- ✓ Transport approved for dangerous goods plus fully-qualified drivers
- ✓ Transparent GPS tracking

Our certified recycling services boost your recycling quotas and deliver sustainable environmental protection.

Recycling and reuse

We return lithium-ion batteries to the recyclable loop wherever possible. To do so, we organise all of the process steps ourselves – from unloading to dismantling and recycling or reuse.

Facilities in our partner network are equipped with the latest process technology, meet all applicable legal requirements and also comply with all international standards – such as quality and environmental management (DIN EN ISO 9001 and DIN EN ISO 14001).

Benefits

- ✓ International network of certified recycling facilities
- ✓ Recovery of valuable materials
- ✓ Quality and environmental management to international standards
- ✓ Resource-friendly handling of end-of-life lithium-ion batteries

Recycling
and
reuse

Our consulting and training services comprise answers to all of your recycling problems and questions.

Training and consulting

Which regulations for disposal and recycling do you need to consider as a distributor of lithium-ion batteries?

Which take-back options are available?

We offer workshops, online training and consulting services to answer all of your questions about industrial battery take-back, and can provide you with specific details of the latest legal requirements.

Benefits

- ✓ Comprehensive advice on lithium-ion battery disposal and recycling
- ✓ Training on regulatory compliance
- ✓ Information from the experts

Training
and
consulting

Our professional reporting and documentation services provide you with one-click access to all of your data.

Reporting and documentation

Lithium-ion battery waste management requires end-to-end documentation – across national borders and according to national regulatory requirements. We offer you comprehensive advice on your service package, and provide you with all of the necessary take-back documents and papers.

We help with notification and supply you with disposal and recycling/reuse certification. Our online SIMPLi RETURN portal gives you immediate access to all of your documents.

Benefits

- ✓ Cross-border documentation on take-back and recycling
- ✓ Advice and support for the notification process
- ✓ Digital interface for full transparency
- ✓ Rapid access to all documents via the SIMPLi RETURN portal
